

As the largest pro-Israel organization in the United States, with over 10 million members, Christians United for Israel (CUFI) is the foremost Christian organization educating and empowering millions of Americans to speak and act with one voice in defense of Israel and the Jewish people. CUFI's diversity across political, ethnic, generational and denominational lines maximizes our impact in communities, the media, on campus, and in our nation's capital.

CUFI is committed to confronting indifference and combating antisemitism in all its forms wherever it may be found.

CUFI acts as a defensive shield against anti-Israel lies, boycotts, false theology, and political threats that seek to delegitimize Israel's existence and weaken the close relationship between Israel and the United States.

Over the past 15 years, CUFI played a leading role in efforts to curb Iran's nuclear ambitions, hinder Hezbollah and Hamas's war of terror against Israel, strengthen the Jewish state's ability to defend itself, and defend Israel against the antisemitic BDS movement. And we've only just begun

CUFI on Campus is defending Israel by providing students with the skills, resources, and knowledge to support Israel. CUFI on Campus develops student leaders and equips them to become effective advocates for Israel on their college campuses. To date, CUFI on Campus has trained close to 4,000 activists and currently has a presence on over 330 campuses.

The Israel Collective (IC) is revealing the truth about Israel and the Middle East to the millennial generation. CUFI'S POLICY AGENDA

CUFI is committed to Israel's strength, security, and sovereignty. To this end, we stand with the decisions of the democratically elected government of Israel and work to support the US-Israel relationship and safeguard the Jewish state's right to defend itself. We are focused on addressing the following policy items:

Support for a strong US-Israel relationship

Founded upon the two nations' shared values, the alliance between the US and Israel is in the vital national security interests of both countries. Israel is the West's sole outpost of freedom and democracy in the Middle East, therefore CUFI supports American aid to Israel and the maintenance of the Jewish state's qualitative military edge in the region.

Opposition to international pressure on Israel

Like any other sovereign democratic nation, Israel has the right to defend itself from terrorism and other violent threats. In addition, the Israeli military has time and again shown itself to take great risks to minimize civilian casualties, whereas Israel's enemies use civilians as human shields. CUFI opposes international condemnation of Israel's legitimate acts of self defense and international pressure on Israel to make concessions to its adversaries that the Jewish state does not wish to make.

Countering Iran's malevolence

Iran is the world's leading state sponsor of terror and the preeminent force for evil in the Middle East. Tehran remains committed to developing a nuclear weapons capability and supporting terrorists around the globe, including the terrorist-armies Hezbollah in Lebanon and Hamas in Gaza. CUFI is committed to countering Iran's malevolence through sanctions on the Islamic Republic and efforts to disrupt military and financial support of Iran's proxies.

Opposition to Antisemitism

Over the past several years there has been a sharp increase in antisemitism in the United States. While freedom of speech is protected under our Constitution as a personal right, there are and should be consequences for those who unlawfully harass others. Antisemitism is not just a Jewish problem, it is an American problem, and therefore CUFI is actively engaged in working to combat antisemitism in our society.

Countering Palestinian terrorism and intransigence

Despite repeated Israeli efforts to make peace with the Palestinians, their leaders have remained committed to Israel's destruction. Hamas, the de facto ruler of the Gaza Strip, is at its core a terrorist organization committed to the annihilation of the Jewish state. The Palestinian Authority (PA) remains unwilling to abandon its incitement of violence against the Jewish state and its "pay-to-slay" program for terrorists. At this stage, CUFI does not believe the PA is a true partner for peace and opposes US taxpayer aid to the PA until it changes its behavior.

Opposition to the BDS movement

According to their own founders, the BDS movement's goal is to destroy Israel through economic warfare. The BDS movement is inherently antisemitic as it targets the world's only Jewish state with lies and demonization and aims to deny the Jewish people their right to self-determination. CUFI supports both state and federal legislation aimed at ensuring US taxpayer dollars do not end up in the hands of antisemites who support this movement. CUFI also continues to support anti-BDS legislation in states across the country.

In cooperation with our sister organization, the CUFI Action Fund, a nonprofit 501(c)(4), nonpartisan organization, we have accomplished much for Zion's sake.

- » President Trump kept his promise to open the US Embassy in Jerusalem after more than 135,000 CUFI members emailed the White House.
- » President Trump cut off all US funding to UNRWA after CUFI began working with elected officials to end UNRWA's anti-Israel influence in the Middle East.
- » CUFI members sent over one million emails to Congress to pass the Taylor Force Act which cuts off US aid to the Palestinian Authority until the end their "Pay to Slay" incentivization of terrorism.
- » CUFI fought for and won United States recognition of Israeli sovereignty over the Golan Heights.
- » The Stop Using Human Shields Act was introduced during the 2018 CUFI Washington Summit and was passed by both the Senate and House.
- » CUFI is combating antisemitism with over two million CUFI members and counting, participating in our Shine the Light campaign.
- » CUFI has defeated BDS in several states through the passage of anti-BDS legislation.
- » CUFI worked to curb Turkey's brazen malevolence through the advancement of the Eastern Mediterranean Security and Energy Partnership Act, one of CUFI's top policy priorities at our 2019 Summit.
- » CUFI opposed Hezbollah's increasing influence in Lebanon by advancing legislation to condition aid and increase reporting requirements for the Lebanese Armed Forces as to Hezbollah's influence. The Defense Department is now required to report on Lebanon's compliance.
- » CUFI protected Jewish students on college campuses through our support of President Trump's executive order mandating the IRHA's definition of antisemitism as US policy.
- » CUFI worked to see the Never Again Education Act passed through the House which will ensure students are thoroughly educated on the evils of antisemitism so the growth of this hatred is never enabled again.
